

# WEAR GUARD 6000 PREMIUM AW 68

Central Oil Presents: Our Best AW 68 Yet

## 6000 HOURS OF WORK

At Central Oil & Supply, we pride ourselves in providing the best protection for our best customers. Wear Guard Premium 6000 AW 68 was designed to provide optimal protection in high pressure applications, excellent oxidation resistance, and superior anti-wear protection.

## APPLICATIONS

Wear Guard 6000 Premium AW 68 oil was designed to meet all major pump manufacturers' requirements. Recommended for hydraulic systems that have vane, piston, or gear type pumps and particularly where pressures exceed 1000 psi. Wear Guard Premium 6000 AW 68 can also be used to lubricate lightly loaded reciprocating compressors. It can also be used as a general purpose shop lubricant for motors and bearings.

**Wear Guard 6000 Premium AW 68**  
Available in: Bulk, Drums & Pails

## FEATURES & BENEFITS

- Specifically designed to maximize protection to hydraulic pumps and their parts
- Formulated with highly refined, high viscosity index base stocks
- Provides excellent demulsibility and rust protection
- Anti-wear additives create a protective film on metal surfaces
- Helps minimize metal to metal contact that is most severe in vane and gear pumps
- Minimum viscosity changes over a wide range of temperatures
- Superior filterability is provided with excellent thermal and hydrolytic stability, preventing the formation of deposits which may interfere with filtration in equipment that has close tolerances

\*Always consult your owner's manual for the proper fluid for your equipment
